

# Joint Development Partner Wanted

Would you like to develop products using nano bubble generate technology together?

Our product [MAGIC NANO] is a generator that produces ultra fine bubbles which is 10nm to 300nm. We are looking for business partner who can collaborate with us in developing the product using this technology. Nano bubble has great possibilities in various fields to breed new needs.

## Agriculture

Promotion of the growth speed of crops

## Food processing

Long-term sterilization effect

## Industry

Energy savings

## Fishery industry

Freshness maintenance improvement when transporting

## Livestock industry

Bioactive improvement and prevention of infectious diseases

## Washing

detach dirt from the surface

**Endless possibilities**
